Few cities had a more charming suburban esort the evening of the Fourth than did lemphis at Estival park. At an early hour visitors began to enter the grounds, which at night were ablaze with varicolored lights and Chinese lanterns. Every avenue was ablaze with lights, which danced about like great gems of sparkling radiance, casting a sheen of brightness upon the fountain's spray, which gleamed like a shower of diamonds. Arnold's full band occupied the stage and produced unexceptionally fine music, which added all the more to the fascination of the visitors. The attendance was well nigh on visitors. The attendance was well high on to three thousand persons, embracing the very oest and leading people in Memphis so-ciety. The pyric display charmed the feelings and well-nigh dazzled the eye. WINES, LONDON, July 5.—The report that the siege of Kars has been raised is, at least, premature, but the defeat of the Russian field armies of the left and center, and of the investing force before Batoum, is beyond ques-tion, and, altogether, is likely to interfere with, if not terminate, the operations against Kars. The latest Turkish news about Kars is that the bombardment has been materially slacked. The army besieging Kars has been left uncovered in consequence of the disaster at Batoum, and although i has not raised the siege it is taking measure to do so if its situation becomes more imper-illed. Both sides seem to have shown great bravery. The Russian troops, after losing positions one after another, were after a time rallied by their chiefs. This explains the

way twenty officers are mentioned as killed or wounded. It is believed the Turks suf-fered heavily, as they do not seem to have followed up their success with the rapidity which might have been expected.
